

# I Don't Drink Anymore

Jason Aldean

She don't like this bar  
She don't like my friends  
She thinks we party too hard  
She said it's me or them  
She said I need to change my ways  
Boy you got a choice to make

So I don't drink anymore  
Ever since she left  
I don't drink any more  
And I don't drink any less

She picked a bad time  
To try to slow me down  
And this ain't a good night  
To try and turn me around  
I still like to get crazy nothing new  
Still like to have a few

But I don't drink anymore

Ever since she left  
I don't drink any more  
And I don't drink any less

I didn't want her to go  
And it's not that I don't give a damn  
I just want someone to want me  
For who I am  
And this is who I am

She said I need to change my ways  
Boy you got a choice to make

So I don't drink any more  
Yeah tonight you can bet  
I don't drink any more  
And I don't drink any less  
I don't drink any more  
And I don't drink any less
