

# Staring at the Sun

Jason Aldean

She's like starin' at the sun  
She could easily blind someone  
Other women, I see none  
She's like starin' at the sun

She gets on you  
Under your skin like a tattoo  
She'll always be there  
She holds on, stuck in your head like an old song  
She ain't goin' nowhere

She's like standin' in the rain  
Washes all my cares away  
At the end of a long, hot day  
She's like standin' in the rain

She gets on you  
Under your skin like a tattoo  
She'll always be there  
She holds on, stuck in your head like an old song  
She ain't goin' nowhere

She gets on you  
Under your skin like a tattoo  
She'll always be there  
She holds on, stuck in your head like an old song  
She ain't goin' nowhere

She's like finally coming home  
And seeing that light in the window on  
After being gone too long  
She's like finally coming home  
Standin' in the rain  
Starin' at the sun
