

# Dreamed You Up

Jason Blaine

I've got a sweet suspicious that I'm getting deja vu  
Some kind of crazy feeling, I've been here before with you  
The way you smiled just now, I realize where it was

I musta dreamed you up late one night  
It's like you walked right out of my sleep and came alive  
Now here you are in my arms, free falling in love  
I musta dreamed you up, oh-oh  
I musta dreamed you up, oh-oh

Just like some late night vision, aberration or mirage  
The way you cut right to me [?]  
So new and so familiar, every time we touch

I musta dreamed you up late one night  
'Cause it's like you walked right out of my sleep and came alive  
Now here you are in my arms, free falling in love  
I musta dreamed you up, oh-oh  
I musta dreamed you up, oh-oh

'Cause I know I've kissed these lips before  
With both of my eyes shut

I must dreamed you up late one night  
'Cause it's like you walked right out of my sleep and came alive  
Now here you are in my arms, free falling in love  
I musta dreamed you up, oh-oh  
I musta dreamed you up, oh-oh  
I musta dreamed you up, oh-oh  
I musta dreamed you up, oh-oh  
Oh
