

Drink Too Much

Jason Blaine

You've been crossin' t's and dottin' i's too much
Off to work and payin' every bill on time too much
Baby, you been up at the crack of dawn, and
Workin' out in the mornin'
Doin' what they tell you you should do too much

But it's Friday night, and I just wanna
Get a little loose, baby, maybe me and you
Need a long night off from bein'
Responsible, dependable, tonight

Don't you kinda wanna drink too much, drink too much?
Go a little crazy, get a little hazy
I don't wanna think too much, think too much
Just let your wild side run the show tonight, hey, baby
Don't you kinda miss the tipsy kiss and whiskey smile?
Girl, you know it's been a while
Don't you kinda wanna drink too much?

Let the taxi driver drive tonight
Fill the bartender's jar too high tonight
Yeah, we'll be up till the crack of dawn, and
Sleepin' away the mornin'
It doesn't matter what we get into tonight

I kinda wanna drink too much, drink too much
Go a little crazy, get a little hazy
I don't wanna think too much, think too much
Just let your wild side run the show tonight, hey, baby
Don't you kinda miss the tipsy kiss and whiskey smile?
Girl, you know it's been a while
Don't you kinda wanna drink too much?

But it's Friday night, and I just wanna
Get a little loose, baby, maybe me and you
Need a long night off from bein'
Responsible, dependable, tonight

Don't you kinda wanna drink too much, drink too much?
Go a little crazy, get a little hazy
I don't wanna think too much, think too much
Just let your wild side run the show tonight, hey, baby
Don't you kinda miss the tipsy kiss and whiskey smile?
Girl, you know it's been a while
Don't you kinda wanna drink too much?
I kinda wanna drink too much
Yeah, baby, drink too much
Yeah-yeah-yeah...
