

Every Sweet Sundown

Jason Blaine

Baby you, you look so beautiful tonight
I'm feeling that rush like I'm fallin' in love for the first ti
me
Every move you make, every time we kiss
Wanna hold you close just like this

Every sweet sundown when the night comes around
Baby there's no doubt you're all I need
Every sweet embrace, goin' all the way
Just how much better could it ever been
We find out every sweet sundown

Everyday I wanna wake up next to you
In that early mornin' light baby you're the picture I'm holdin'
on to
Every minute we're apart makes me want you more
Keeps me dreamin' 'bout you and waitin' for

Every sweet sundown when the night comes around
Baby there's no doubt you're all I need
Every sweet embrace, goin' all the way
Just how much better could it ever been
We find out every sweet sundown

Just you and I, nobody else around
Every sweet sundown

Every sweet embrace, goin' all the way
Just how much better could it ever been
We find out, yeah we find out every sweet sundown
Every sweet sundown
