

# Give It To Me

Jason Blaine

Don't worry baby its gunna be alright  
I think I know just what you need tonight  
Take everything that keeps on stressing you out and give it to  
me  
Tell me your secrets and your sweetest dreams  
Your deepest fears and your fantasies  
I wanna carry what's been weighing you down  
So give it to me

Baby tonight there ain't nothing wrong  
You can let yourself go  
You don't have to be strong  
Close your eyes and just get lost  
Safe in my arms baby take it off,  
Give it to me

We'll find each other lying in the dark  
I wanna feel the rhyme of your heart  
Girl I'll protect you for the rest of my life  
So give it to me

Baby tonight there ain't nothing wrong  
You can let yourself go  
You don't have to be strong  
Close your eyes and just get lost  
Safe in my arms baby take it off,  
Give it to me

Baby tonight there ain't nothing wrong  
You can let yourself go  
You don't have to be strong  
Close your eyes and just get lost  
Safe in my arms baby take it off,  
Safe in my arms baby take it off,  
Give it to me
