

Mood Swing

Jason Blaine

Girl you've had a long day on your feet and fighting
Through the freeway pull up in a drive
I've got the porch light on, baby bring it on home to me
Come on baby kick back tripping on down
Yeah just like that looking like an angel
With my t-shirt on get your work week gone
Girl tonight it's just you and me

We can let the mood swing
Drop the needle on a record, let that six-string sound
Change the color on your mood ring
But fade it white while I'm gonna have [?] is not around
Slow dance to me close
Got the lights dimmed low
Let moonlight do its thing
We can let the mood swing, yeah

Baby we can dive in to a sea of blankets
Take a long swim, let this love take us
High as heaven right now on the number nine cloud
Till the sun comes back around

We can let the mood swing
Drop the needle on a record, let that six-string sound
Change the color on your mood ring
But fade it white while I'm gonna have [?] is not around
Slow dance to me close
Got the lights dimmed low
Let moonlight do its thing
We can let the mood swing

Lock a world outside
Baby you and I

We can let the mood swing
Yeah we can let the mood swing

We can let the mood swing
Drop the needle on a record, let that six-string sound
Change the color on your mood ring
But fade it white while I'm gonna have [?] is not around
Slow dance to me close
Got the lights dimmed low
Let moonlight do its thing
We can let the mood swing
Yeah we can let the mood swing
We can let the mood swing
Oh baby
