

Travelin' light

Jason Blaine

Got a real good feel good song comin' on my radio
Got a warm sweet summer breeze singin' to me through my window
That summer face gonna take me away to a place where I can breathe
Gonna follow the sky and the highway lines, let 'em lead me where I need to be

I wanna take the right road
Wanna learn to let go
Leavin' my heavy load far behind
Hands on the steerin' wheel
Eyes on the windshield
Lettin' that rear-view heal this heart of mine
Gonna row with the flow
Cause I know that it's all gonna be alright
Free and easy I'm travelin' light

No I ain't got a clue what I'll do when I get where I'm goin'
Guess I'll find out soon, but it feels kinda cool not knowin'
Got a full tank and faith and the Eagles playin' that peaceful easy feelin'
Now 'bout a mile I'm findin' my smile and a reason to keep believin'

I wanna take the right road
Wanna learn to let go
Leavin' my heavy load far behind
Hands on the steerin' wheel
Eyes on the windshield
Lettin' that rear-view heal this heart of mine
Gonna row with the flow
Cause I know that it's all gonna be alright
Free and easy I'm travelin' light

I got these boots and my guitar in the back
All we gotta do is just be here where I'm at

I wanna take the right road
Wanna learn to let go
Leavin' my heavy load far behind
Hands on the steerin' wheel
Eyes on the windshield
Lettin' that rear-view heal this heart of mine
Gonna row with the flow
Cause I know that it's all gonna be alright
Free and easy I'm
Free and easy I'm travelin' light
Yeah, travelin' light
