

# Glory Days

Jason Gray

I've been longing for what I thought were the glory days  
Back when my life felt so easy  
Anywhere but here would be a better place  
Caught up California dreaming

I know my heart can get carried away  
On a hindsight holiday  
But standing in the middle of the rain right here  
It's so clear

These are my glory days  
These are my glory days  
Busted and broken, but finally open  
Wider than an empty grave  
This is the good life now  
Found it where I fell down  
Shattered in pieces, but thank you, Jesus  
These are my, these are my glory days

These are my glory days

The hard times are where you get the best of me  
Yeah, this is where we turn the corner  
I'm becoming more than I ever dreamed  
In the glory days of my reorder

You make my heart stronger when it breaks  
Cuz when I fall, I fall into Your grace  
Standing in the middle of the pain right here  
It's so clear

These are my glory days  
These are my glory days  
Busted and broken, but finally open  
Wider than an empty grave  
This is the good life now  
Found it where I fell down  
Shattered in pieces, but thank you, Jesus  
These are my, these are my glory days

These are my glory days

You take me higher  
When I walk through fire  
Hallelujah, hallelujah  
These are my glory days  
You make me stronger  
When the night is longer  
Hallelujah, hallelujah  
These are my, these are my...

These are my glory days  
These are my glory days  
Busted and broken, but finally open  
Wider than an empty grave  
This is the good life now  
Found it where I fell down

Shattered in pieces, but thank you, Jesus  
These are my, these are my glory days

Right where I'm at  
The good with the bad  
I'm not looking back  
As long as I have you  
These are my glory days

Right where I'm at  
The good with the bad  
I'm not looking back  
As long as I have you  
These are my glory days
