

# Angel Of Broken Hearts

Jason Michael Carroll

How do I move on from here  
When everything I lost is what I want  
This ocean left inside of me  
Has become her memory's favorite place to haunt

How can the best I ever had  
Hurt so bad, hurt so long  
You know I'm not that strong

Angel of broken hearts  
Where on earth are you tonight?  
Help me find a place to start  
To get me over her

Maybe I mistreated love  
Have I not suffered long enough?  
Angel of broken hearts  
Take this pain away, take this pain away

Some days I think that I've come through  
The worst of it and I'm on the healing side  
And then she kicks up like a dust bowl wind  
And covers up my mind

I lose hours, I lose days  
In the haze of used to bes  
And then I'm on my knees

Angel of broken hearts  
Where on earth are you tonight?  
Help me find a place to start  
To get me over her

Maybe I mistreated love  
Have I not suffered long enough?  
Angel of broken hearts  
Take this pain away, take this pain away

I've paid with prayers, I've paid with tears  
But I'll probably pay for years  
I could use a little mercy here

Angel of broken hearts  
Where on earth are you tonight?  
Help me find a place to start  
To get me over her

Maybe I mistreated love  
Have I not suffered long enough?  
Angel of broken hearts  
Take this pain away, take this pain away

Oh, angel  
Come and take this pain
