

Are you dancing with your partner
Or are you pushing them around?
Are you begging for attention
Or do you love the one you've found?
Are you giving up your Saturdays
To waltz all over town?
Or is everything a jolly holiday
With a merry y'all with now

You could give it all away
Give it all and be unstoppable
All away, everything is really possible, all away
You never really own it anyway
It'll all fall in place if you just let go

Don't dress up your children
Like dolls from your past
Or they'll run from you madly
They'll never look back
And when they grow older
They'll do just the same
The world's a reflection of how children play

Well you could give it all away
Give it all and be unstoppable
All away, gonna make empty meaningful
You never really own it anyway
It'll all fall in place if you just let go

When you're in the mood, baby
Hear just what your heart has to say
When the world is turning topside and turvy
Then you better hurry back down
To the bottom of your soul and be loved

Your word is your access
Your mouth is your door
Let's slide down inside there
And see what's in store
In the middle there's a rhythm picking
It's a freaking hard beat
At the bottom there's a lot of water
Keeping your soul deep

You could give it all away
Give it all and be unstoppable
All away, everything is really possible, all away
You never really own it anyway
It'll all fall in place if you just let go

When you're in the mood, baby
Hear just what your heart has to say
When the world is turning topside and turvy
Then you better hurry down
To the bottom of your soul
Get down, get it all, and be loved
