

## Friday at Rex

Jay-Jay Johanson

She showed me how to dance on the floor  
The moves I could use  
Each friday at the rex we would meet  
Sometimes without words  
The doorman said if you had arrived  
What colours you wore  
I wish we could have stayed all night  
And never, never stop  
The dj played the songs we choose  
Your moves just hypnotized me  
Oh how I wish he plays another song  
She always move her feet to the groove  
And all the heads turn  
So call your friends and bring them along  
And get down on the floor  
I'm here, I'm there I'm everywhere  
When I feel the beat  
With you in the round on the floor  
And love in your eyes  
The dj played the songs we choose  
Your moves just hypnotized me  
Oh how I wish he plays another song  
I wish we could have danced all night  
And never, never stop
