

Rocks in Pockets

Jay-Jay Johanson

Pack your bags Keep it quiet So your dad doesn't wake up He'll
be mad When he'll notice that you're gone

Cross the field Through the trees Behind the curtain we take of
f Cut the leach Come with me We're on the run

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We got rocks in our pockets But nothing's gonna slow us down

Leave a note with goodbye They're not gonna understand They bel
ieve that they're doing the best they can

Down the stairs Out the door Here we are the motor's running So
come on We're gonna need a big advance

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We got rocks in our pockets But nothing's gonna slow us down

Checking in Checking out There's a blanket in the car I know it
's cold But I will try to keep you warm

Strike a match Hide the box To the smell of gasoline Take a bre
ath We're gonna leave it all behind

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We don't need nobody's help We can make it on our own We just w
ant you all to leave us alone

We got rocks in our pockets But nothing's gonna slow us down
