

Come On Phone

Jean Shepard

Got me a phone in my home but hand don't fit the handle
And I can't think of what number that I know
Since I had in store there ain't nobody call me and I can't thi
nk nobody I could call
So come on phone and play some pretty music you can play and I'
ll sing along
Come on phone and be a comfort to me I'd like to see you ring r
ight off the wall

Got me some things I could say but I got no one to say into
And no one ever listens what I am
Well there must be someone feels the same way that I feel
Sit and waitin' on the other end
So come on phone
So come on phone
