

# Don't Take Advantage On Me

Jean Shepard

Don't make me a promise and then make me blue don't say you love me if it isn't true  
Don't make me cry so much I can't see please don't take advantage of me  
You might be the kind who'll just lead me on  
Then when I need you most that's when you'll be gone  
Don't tell me those sweet lies you know I believe please don't take advantage of me

Ever since I first met you I've been so in love  
Day and night it's you that I'm thinking of  
So before you hurt me I'm begging you please please don't take advantage of me  
You might be the kind...
