

I Don't See How I Can Make It

Jean Shepard

I don't see how I can make it with you gone
I woke up today, and found that you had left me
But I wasn't so surprised to see you gone
I could see for quite a while that it was coming
But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract
Read a needle twenty faces from it's sight
See the Leaning Tower of Pizza in perfection
But I don't see how I can make it with you gone

I remember when you said, I love you, truly
Said our vows of love till death would separate
I can see the days ahead are blue tomorrows
But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract
Read a needle twenty faces from it's sight
See the Leaning Tower of Pizza in perfection
No, I don't see how I can make it with you gone
