

Sweet Temptation

Jean Shepard

Sweet temptation that's what you are to me
That's all you'll always be it seems
Sweet temptation, you smile and pass me by
But still you occupy my dreams

Now maybe I've got lots of hidden charms
You'd find it if you just hold me in your arms
But you're just sweet temptation, a diamond in the rough
You make it, oh, so tough for me

Sweet temptation, so most delicious peach
It's always out of reach they say
Sweet temptation, you're just a little flirt
You know you might get hurt that way

Now someday you may make a big surprise
By someone who will make you realize
That you're just sweet temptation, a diamond in the rough
You make it, oh, so tough for me
