I'm gonna stay right here beside him cause a woman's place is w ith her man

So many times a man gets lonesome and that's when he needs a he lping hand

A woman's hand though soft and gentle can do so much to help he r man

Just holding him each time he needs you the power of love is in a woman's band

It's a woman's hand that makes a man go searching It's a woman's hand that makes a man stay home For he can't do either one without a woman It's a woman's hand that leads him right or wrong For he can't do either one...
