

Mr. Record Man

Jeannie Seely

Mr. Record Man I'm looking for a song I heard today
There was someone blues singing about someone who went away
And like me her heart was yearning for a love that used to be
It's a lonely song about a lonely girl like me

There was something about a love that didn't treat her right
And she'd wake from troubled sleep and cry his name all night
Mr. Record Man oh get that record for me won't you please
It's a lonely song about a lonely girl like me

I was driving down the highway with my radio turned on
And a girl that I heard singing sound so blue and all alone
As I listen to her lonely song I wonder could there be
Could there somewhere be another lonely girl just like me

There was something about a love that didn't treat her right
And she'd wake from troubled sleep and cry his name all night
Mr. Record Man oh get that record for me won't you please
It's a lonely song about a lonely girl like me
