

True Calling

Jedward

Oh darling, you are my true calling
You got me falling hard
I feel you in my blood
Oh darling, you are my true calling
Your love is everything
I've been living for

Yeah, tonight I'm drowning missing you
Looking high and low that's the honest truth
Cause this distance apart
Helps collect my thoughts
Now I know in my heart
You're the one for me

We gotta stand for what we are
Can't let them tear us apart
What we have is real
We gotta stand for what we are
Cause you can't buy what we got
Let's give it our best shot

Because without you here
I'm just chasing a feeling
A moment in time
When everything had reason
Oh, without you here
I'm just chasing a feeling
Oh, you are my true calling

Do you hear me?
Can you set me free?
Cause you're all I need
Oh baby, you are my
True calling

Because without you here
I'm just chasing a feeling
A moment in time
When everything had reason
Oh, without you here
I'm just chasing a feeling
Oh, you are my true calling

Yeah, I taste the memories when we kiss
Oh, nothing will ever compare to this
Cause you're one I a million
And I'm feeling blessed
Oh, without your touch I'm a total mess

We gotta stand for what we are
Can't let them tear us apart
What we have is real
We gotta stand for what we are
Cause you can't buy what we got
Let's give it our best shot

Because without you here

I'm just chasing a feeling
A moment in time
When everything had reason
Oh, without you here
I'm just chasing a feeling
Oh, you are my true calling

Do you hear me?
Can you set me free?
Cause you're all I need
Oh, baby you are my
True calling

Because without you here
I'm just chasing a feeling
A moment in time
When everything had reason
Oh, without you here
I'm just chasing a feeling
Oh, you are my true calling

Do you hear me?
Can you set me free?
Cause you're all I need
Oh, baby you are my
True calling
