

Afraid To Die

Jeff Scott Soto

Time stands still
When you're feeling down and all alone
Lost the will
Feeling all desire's here and gone

Top of the world
Is where u once belonged and proudly reigned
Flag unfurls
No one understands the cause or pain

You're caught in the middle
Demoralized, yea yea
Scared to keep on breathing
Afraid to die

Now you've reached that dreaded point of no return
Reflecting life
The one way out is no way out, your savior
Is borrowed time

You're caught in the middle
Demoralized, yea yea
Scared to keep on breathing
Afraid to die

You're caught in the middle
Demoralized, yea yea
Scared to keep on breathing
Afraid to die

One pull of the trigger
The paradise, no no
To live's so much bigger
No need to die!
