Run Around

Jefferson Airplane

One time , run around, Don't look and for me to go your way You left me here with out anything to love I'll tell you I've had ... enough of your hands running round my brain, And... I've.... had have enough of the way that you cause me pain So slow down, run around your other side, Walk with me instead tonight We could be near like we use to be before Ahh girl, ...I.. need more of the times that you turned me round And There's ... no time to turn away love I've found So couldn't we forget about today , start again from where we w ere We use to dance out to space without a care And our laughter come ringing and singing we rolled round the m usic, Blinded by colors come crashing from flowers that sway as you s tay here by me . Slow down, run around Your love is soft Walk with me instead tonight We could be near like we use to be before Ahh girl, ...I... need more of the times that you turned me round And ...there's no time to turn away love I've found Run around Lifetime run around Don't look back and for me to go your way You left me here with out anything to love I'll tell you ...

I've ..had enough of your hands running round my brain, And I've had have enough of the way that you cause me pain Well run around.
