

Share My Love*

Jeffrey Osborne

Won't you share my love?
Won't you share my love?

I'm so tired of being lonely
I want to be loving you only
So many girls have crossed my path
But I could not last, I needed you, oh
(Won't you share my love?)

You pick me up when the world's down on me
(Won't you share my love?)
You ease my mind when I feel [incomprehensible]
I can do no wrong with you by my side
Welcome to my life

Come on and share my love
Be a part of my tomorrow
Put an end to all my sorrow and pain
Come on and share my love

Won't you share my love?
Won't you share my love?

And now you've given me new inspiration
Without you in my life I have no direction
Together we can build a world full of joy
I promise you we will if you just share my love

Till the stars fall from heaven
Oh, my darling, stay right here with me
So you can share my love
I don't want to leave you ever
Let's spend our lives together always
Stay and share my love

Till the stars fall from heaven
Oh, my darling, stay right here with me
Stay and share my love, share my love
Let's spend our lives together always
Stay and share my love

I don't want to leave you ever
Let's spend our lives together always
Stay and share my love
