

# The Way It Is

Jennifer Lopez

It always feels like a love to me...in the beginning  
My mind is just a mirror of the way my heart wants it to be...  
I hope to see everything in his eyes, cause that's where it starts with the truth and the lies  
And I can-  
not hide my emotion; you cannot hide your intentions from me.

[Chorus:]

Don't you think, what I'm saying is, it's just the way it is, it's just the way it is  
Not everything is what you say it is, that's just the way it is, the way it is, the way it is

And everything you do to me, it'll be done to you  
And everything I put you through, well then-I'll-go-through  
But I'm willing to take that chance, for this type of romance..  
.its special baby  
I always look for love to be, so exciting...  
But you can't force it I'm finding, in reality chemistry is everything.

[Chorus: 2x]

Don't you think, what I'm saying is, it's just the way it is, it's just the way it is  
Not everything is what you say it is, that's just the way it is, the way it is, the way it is...  
is...

Yeah yeah

What your perception is, of our connection is simply perfection  
and it's the same thing  
If you're accepting it, then I'm accepting it, simple perfection and its just the same thing,

uh uh uh uh uh uh uh uuuh-uh uh uh uh uh uh uuuh-  
uh uh uh uh uh uh uh uuuh-uh uh uh uh uh uh  
uuuhh

[Chorus: 3x]

Don't you think, what I'm saying is, it's just the way it is, it's just the way it is  
Not everything is what you say it is, that's just the way it is the way it is the way it is!
