

## Up at Night

Jennifer Paige

I took the apple, somehow I'm still around  
I drink your poison, they say that's not allowed  
Oh, nobody ever made me feel this way  
I'm falling for you, I fall for you babe  
Tell me what you know, I wanna hear  
Show me that you love me, if you dare

That's what keeps me up at night  
That's what keeps me up at night  
Need you here right by my side  
The way you love me right, love me right

That's what keeps me up at night  
That's what keeps me up at night  
Ain't no sleeping with you by my side  
The way you love me right, love me right  
You love me right

My mama told me, that I could do no wrong  
I shoulda listened, but baby that's no fun  
Oh, nobody ever made me feel this way  
I'm falling for you, I fall for you baby  
Tell me what you know, i wanna hear  
Show me that you love me, if you dare

That's what keeps me up at night  
That's what keeps me up at night  
Need you here right by my side  
The way you love me right, love me right

That's what keeps me up at night  
That's what keeps me up at night  
Ain't no sleeping with you by my side  
The way you love me right, love me right  
You love me right

That's what keeps me up at night  
That's what keeps me up at night  
Need you here right by my side  
The way you love me right, love me right

That's what keeps me up at night  
That's what keeps me up at night  
Ain't no sleeping with you by my side  
The way you love me right, love me right  
You love me right  
You love me right  
You love me right
