

Wasted

Jennifer Paige

We used to be happy
We used to make sense
We had everybody
Believing again
We used
To stick together
Everywhere we went
Always in to each other
So over confident

I don't know
If you've ever fallen apart
Or ever had a broken heart

I don't wanna be there
I don't wanna be free
It's wasted
It's wasted on me
I don't wanna be scared
Why can't you agree
It's wasted
It's wasted on me

We used to be something
Everybody saw that
Said it was forever
On the right track
I don't know how it changed
But I want it back
Cuz I never saw this coming
Never thought
You could do that

I don't know
If you've ever fallen apart
Or ever really had a heart

I don't know it all
I want it all
Just wanna be
Back to you and me
Don't wanna go
But here I go
