

# A Touch Of Paradise

Jennifer Rush

The evening stars shine down in peace  
Seeing this it makes my troubles cease  
The sun is hiding I wanna be where you are  
As it stretches right across the sky  
That always seems so far

And all I do is look into your eyes  
For that special touch of paradise  
Just a touch a touch of paradise  
Just a special touch of paradise

You hold my hand, that's when we kiss  
And it doesn't take long for me to know what I miss

All this love that stretches out across the land  
Where rainbows flash  
As we're walking in the sand

And all I do is look into your eyes  
For that special touch of paradise  
Just a touch a touch of paradise  
Just a special touch of paradise

A touch of spring and autumn sweet  
More than I can take when our eyes meet  
And I think of all the love  
That we have been making  
You touch my hand  
And I wake up shaking

And all I do is look into your eyes  
For that special touch of paradise  
Just a touch a touch of paradise  
Just a special touch of paradise
