

# We Are The Strong

Jennifer Rush

Ooh... hey...

We are the strong  
Who have the wish to carry on  
Here in our hearts  
Mmm, beating with fire we belong

We are the strong  
With every step  
And every minute you are

We are the brave  
Throwing ourselves into the dark  
Trusting that life  
Shows us the light within all our hearts

'Cause we are the strong  
For every breath  
And every moment you are there  
Ooh, strong with every step  
Know that every minute you are

(We can be proud)  
We are the strong  
Hold up the light  
We can carry on)  
Ooh, we can be proud  
(We are the strong)  
Hold up the light  
We can carry on

You should say we are the strong  
Thankful that luck has played her part  
Alone in the dark  
Keep holding the light within your heart

We are the strong  
With every step  
Every minute you are

(We can be proud  
We can be strong  
Lifting us up  
We can carry on)

Oh, we can be proud  
'Cause we are the strong  
Hold up the light for us to carry on  
We can be proud  
Ooh, 'cause we are the strong  
Lifting it up for us to carry on

(We can be) proud  
We are the strong  
Hold up the light for us to carry on

We can be proud...
