

Come To Me

Jennifer Warnes

When you're searching for someone to believe in
When you're wasting all your time
And you're lovers, they fade into the distance
When it's love you still can't find

Come to me, to the one who really knows you
Come to me, to me, I'm the one who longs to hold you
Come to me, to me, I'm the one who wants show you
How it feels, how it feels

When you're facing one more broken promise
But your cries just go unheard
So many people say they want to love you
But you don't believe a word

Come to me, I'm the one who really knows you
Come to me, to me, to the one who longs to hold you
Come to me, to me, I'm the one who wants show you
How it feels, how it feels

When you're lovers, they fade into the distance
And it's love you still can't find

Come to me, to the one who really knows you
Come to me, to me, to the one who longs to hold you
Come to me, to me, I'm the one who wants to show you
How it feels, how it feels

Come to me, to the one who really knows you
Come to me, to me, to the one who longs to hold you
Come to me, to me, I'm the one who wants to show you...
