

# Once I Was Loved

Jennifer Warnes

I know I should not look  
I should turn away  
When she kisses him  
When she holds his face

I have to smile  
Careful not to stare  
It was another time, another place  
But, brother, I've been there

Once, I was loved  
It was just like that  
It was good as that  
It was better than that

And as I walk these steps  
Travel all these miles  
I have no regrets  
Glad the memory still survives

Days getting old  
But I know there's time to  
Find the one who'll hold me close  
And press his lips to mine

Once, I was loved  
It was just like that  
It was good as that  
It was better than that

Better than that

Days getting older  
But I know there's time to  
Find the one who'll hold me close  
And press his lips to mine

Once, I was loved  
It was just like that  
It was good as that  
It was better than that

Better than that  
Better than that  
Better than that  
Better than that
