

# Take Off

Jeremih

They say good things  
Don't last forever  
I guess they were right

Guess I really gotta let it go  
Telling myself that this just not for me  
Here we go around this merry go  
Don't you understand that  
One of us just gotta leave  
So should I close the door  
You take the key  
Telling me I've been violent  
Wishing I could rewind  
How this broken heart  
I can't believe  
Didn't know how to make this work

You know I thought I had it all y'all  
It seems that I'm wasting time  
Even though that I've tried  
Guess I've done it all wrong

I wish that I  
Wish that I could help us  
But I gotta take off, off, off  
For once in my life  
I gotta take off, off, off  
It's time for me to break away

Baby we should let this curtain close  
This is really nothing else that's left to show  
It's like everytime you look we're starting over  
Baby, we done it too many times before  
Can't you see I had enough  
All my love, maybe you didn't deserve it  
Acting like you're miss perfect  
I'm manning up, standing up  
Cause I know you ain't been doing me right

You know I thought I had it all y'all  
It seems that I'm wasting time  
Even though that I've tried  
Guess I've done it all wrong

I wish that I  
Wish that I could help us  
But I gotta take off, off, off  
For once in my life  
I gotta take off, off, off  
It's time for me to break away

What am I doing?  
Who do I tell?  
I was blinded from the truth  
That's why I stayed so long  
I should blame myself  
Girl, we used to be so close

But I gotta get far away  
Baby, maybe we can roll  
If I get far away

You know I thought I had it all y'all  
It seems that I'm wasting time  
Even though that I've tried  
Guess I've done it all wrong

I wish that I  
Wish that I could help us  
But I gotta take off, off, off  
For once in my life  
I gotta take off, off, off  
It's time for me to break away
