

## Had to Know

Jerry Cantrell

Tonight I spilled myself on the floor, oh-ayy  
Admired the way you clawed through the door, oh-ayy  
Remember the precious look on your face  
You measured the dose, acquired the taste

Keep on trying, questions firing  
More than you bargained for  
'Cause you really had to know

Tonight I left you with so much unsaid, oh-ayy  
You brokered a deal alone in my bed, oh-ayy  
It's no surprise, I've been here before  
You're not the first to be wanting more

Keep on trying, questions firing  
More than you bargained for  
'Cause you really had to know

Had to know  
Had to know

We stand above a place to fall  
We stand above a place to fall  
We stand above a place to fall  
Had to know

Keep on trying, questions firing  
More than you bargained for (bargained for)

Clawed your way through the door (clawed your way through the door)

Spill myself on the floor (spill myself on the floor)
