

# I Keep Changin'

**Jerry Jeff Walker**

Spent some time up in Oregon, spent some time up in Maine  
And each time the ones who knew me then, now they don't know my  
name  
But there comes a time you know you realize, that there's never  
really anyone  
Who's been there all the time (yodel) you know I'm gonna be fre  
e

Last time I was Memphis bound, I say Memphis, Tennessee  
I met some friends and we played my songs  
And that's makin' good kind of music by me  
But you know my life is always changin' lines just to suit some  
melody  
I'm hummin' all the time (yodel) you know I'm gonna be free

Every place I've ever been, I've just simply sung my thoughts  
People pick up on what suits them best and that's me after I'm  
gone  
You know I'm gonna be free  
But there ain't nobody in this whole round world  
Gonna ever really know my mind or know me all the time
