Come On In

Jerry Lee Lewis

If you're here 'cause you love me And not just because things didn't work out with him If you've had sweet dreams of me where we left off Come on in, come on in If you've come back forever and if you're sincere If you'll be satisfied with one man If you've got it together and you're bringing it here Come on in, come on in I've been missing the fire in your ocean green eyes And the love words you whispered back then And if you can still say them without telling lies Come on in, come on in It's the worst kind of hell when we're living apart I don't think I can take it again If you swear you won't break it, I'll open my heart Come on in, come on in Come on in, come on in
