

I Never

Jessica Simpson

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never ever, I do not trust you
I never wanted to be like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never swear, I do not trust you

I'm tired of sittin' home waiting for the phone to ring
While you're out doing any and everything
And everybody sees how you're playing me
Calling me your girl

But I'm not gonna sit around and take this foolishness
You're acting like you can't see the matters in my head
You better play it cool
Or this game you'll lose
I'm telling you the truth

So don't you try to tell me
You've been true to me
When I can plainly see
That in your heart you're still a cheat
And I know that you're lovesick
It's not happening
So don't you come to me
Thinking I'll believe 'cause
It won't work for me

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never ever, I do not trust you
I never wanted to be like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never swear, I do not trust you

What makes you think I
Would sit here and be fool
If you think that it's true, you don't have a clue
I just could not believe
That you're playing me
Boy, what's wrong with you

Since you're the man
Thinking that you could play the game
I think I have to show you
That you don't mean a thing
I'm letting you go
So if you didn't know
I am in control

So don't you try to tell me
You've been true to me
When I can plainly see
That in your heart you're still a cheat
And I know that you're lovesick
It's not happening
So don't you come to me
Thinking I'll believe 'cause
It won't work for me

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never ever, I do not trust you
I never wanted to be like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never swear, I do not trust you

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never ever, I do not trust you
I never wanted to be like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never swear, I do not trust you

Baby did you think that
You could play me
like I would never know
(Could you be so)
Shady
(Now you're gonna see)
You should never spend your
Time with me
'Cause there's no you and me
We can never be

I never wanted to feel like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never ever, I do not trust you
I never wanted to be like this
I never thought you'd make mistakes like this
It never was that you
And now it's time you knew
I never swear, I do not trust you
