

# When You Say My Name

Jessie James Decker

Monday a long day  
Startin' off the wrong way  
Runnin' on empty  
Faith and black coffee

You left early  
Gotta get the bills paid  
I miss your face baby  
I just can't wait

'Till we're all alone  
And this mad world fades away

When you say my name  
Everything comes alive  
Take the darkest room  
And you turn on the lights

When you touch my hand  
You're telling me a secret  
Only we can understand

When you say my name  
Say my name  
Say my name  
When you say my name  
Say my name  
Say my name

Hard times heartache  
Got the strength that love makes  
Somehow somehow  
Gonna find it someday

No matter what life brings  
I know it's gonna be okay

When you say my name  
Everything comes alive  
Take the darkest room  
And you turn on the lights

When you touch my hand  
You're telling me a secret  
Only we can understand  
When you say my name  
Say my name  
Say my name  
When you say my name  
Say my name  
Say my name

It's such a sweet kiss  
My name on your lips  
Oh  
I can't resist it  
I can't resist it

No no no

Mmm yeah

When you say my name

Everything comes alive

Take the darkest room

And you turn on the lights

When you touch my hand

You're telling me a secret

Only we can understand

Only we can understand

Say my name

Say my name

When you say my name

Say my name

Say my name
