

Deflated

Jesu

There's only light here
You give me reason
You destroyed my fear
I must stop breathing

[Chorus:]
The paths that we won't follow,
Give us hope
The pills that we won't swallow

Moods change with seasons
Colors reflect our thoughts
Others share the same shell
Lost without your answers
Hills to get lost in
Words give us reason
I still won't follow
The past gives us our hope

[Chorus]

There's only light here
You give me reason
[repeat]
