

# Ready To Roll

Jet Black Stare

Fast lane through a hurricane  
Open road and I'm ready to roll  
Put the pedal down right away  
Red line and I'm givin' it more

City lights are burning bright behind me  
Top down, I push it to the floor  
Street signs and the center lines spinning  
Burning hot, I feel like I'm ready to roll

Takin' off like a jet plane  
High speeds and she's ready to go  
Fuel burning like a freight train  
Red line and I'm givin' it more

City lights are burning bright behind me  
Top down, I push it to the floor  
Street signs and the center lines spinning  
Burning hot, I feel like I'm ready to roll

Give me room to run,  
One more road I'm on  
Give me room to run away  
I feel like I'm ready to roll

Fast lane through a hurricane  
Top down on the highway  
Takin' off like a jet plane  
Red line and I'm givin' it more

Street signs and the center lines spinning  
Burning hot, I feel like I'm ready to roll

Give me room to run,  
One more road I'm on  
Give me room to run away  
I feel like I'm ready to roll (2x)
