

# Seventeen

Jet

I get back home at a quarter to four  
What ya doin' with ya keys inside my door?  
Seventeen and you've never been here before

I try my best not to put you down  
But there's a hole in my head where the words fall out  
I don't care what faithless people say  
Should I care?

Seventeen  
Don't change one thing

We take our chances every day  
We watch those bleeding hearts decay  
I'd walk through walls, would it make you stay?

I burnt my bridges and I burned my friends  
If I had my time, I'd do it again  
I don't care what faithless people say  
I don't care

Seventeen  
Don't change one thing  
Just burn to the end  
That's seventeen girl  
Seventeen  
Don't change one thing  
Just burn to the end  
That's seventeen girl

I don't wanna talk, I wanna go home  
There's a voice in my head, won't leave me alone  
I want you to follow me home

Coz I know this star that we transcend  
Could be the only chance we get  
Seventeen, I've never been here before

Seventeen  
Don't change one thing  
Just burn to the end  
That's seventeen girl  
Seventeen  
Don't change one thing  
Just burn to the end  
That's seventeen girl  
Burn to the end
