

The Only Place That's Up from Here Is Down

Jet

I don't think I know just what to tell you
I guess I thought that I could help you turn things around
Well I'll see you in the morning to help you through the day
Only if you still want me around
The only place it's up from here is down

I don't think I know just what to tell you
I guess I thought that I could help you turn things around
Well I'll see you in the morning to help you through the day
Only if you still want me around
The only place it's up from here is down

Tell me why do you slip all the time
Drop me if you don't like
I'll get home it's alright

Tell me why do you slip all the time
Drop me if you don't like
I'll get home it's alright
