

# Frequency

Jhené Aiko

We are never far  
We are never far  
We are never far  
We are never

Frequency, frequently  
As I release these frequencies, speak to me  
Every oath, I'll listen up, please keep from me  
As I release these frequencies, oh

Free my city, free my seed  
Bless my situation, give me freedom  
Bless the generation, give them mercy  
Bless the situation, woah  
Be with me frequently  
Bless my situation, give me love  
Bless the situation, let them know  
Know that you love her  
Know you can love

Oh, free my city, free my seed  
Bless my situation, show me love  
Bless the generation, let them know  
Know that you love  
Know that there's love

Never far  
We are never far  
We are never far  
We are never

Frequency, frequently  
As I release these frequencies, speak to me  
Every oath, I'll listen up, please keep from me  
As I release these frequencies, oh

Free my city, free my seed  
Bless my situation, give me freedom  
Bless the generation, give them mercy  
Bless the situation, oh

Be with me frequently  
Bless my situation, give me love  
Bless the situation, let them know  
Know that you love  
Know that you love, oh

Free my city, free my seed  
Bless my situation, show me love  
Bless the generation, let them know  
Know that you love  
Know that they're loved

Never far  
We are never far  
We are never far  
We are never

Free my city, free my seed  
Bless my situation, show me love  
Bless the generation, let them know  
Know that you love  
Know that there's love

Lead them from temptation, make them royalty  
All the things we're facin' makes us question it  
Lead us to salvation, pour that oil please  
That's how we become kings and queens
