## I'm Sorry We Met

## **Jimmie Rodgers**

Though you have refused to see me my dear You'd rather I'd be all alone Still I can't forget the kisses we knew And the days when I called you my own

But you found another and you loved him too My heart is broken I'm sad and I'm blue

I am sorry we met it's so hard to forget The days that used to be

Though you found another...

And though you weren't true I still think of you And your memory is so dear to me
But you found another...
