

# Do Or Die

Jimmy Barnes

Am I too young, am I too old  
I really don't know when I'm told  
No one here can tell me what to do  
If I'd have listened once or twice  
And maybe taken their advise  
Everything would happen very soon

But let me tell you one and all  
I'm the kind that just can't wait in line  
Never one to question why  
Walk straight in, I always do or die

Well you can knock me down  
But don't count me out  
When it all comes down to the final round  
You're gonna see the best come out of me  
And I know in faith, we all must trust  
But I've seen you faith turn to lust  
And every now and then, I clearly see

Let me tell you one and all  
I'm the kind that just can't start a fight  
But if trouble's what your looking for  
Walk straight in, I always do or die  
Left alone I know I'll get by  
Still I stand, and I know I still do or die

Let me tell you one and all  
I'm the kind that just can't wait in line  
Never one to question why  
Walk straight in  
I always walk straight in  
Do or die  
Do or die
