```
My life, more than it ever was My life, I live it just because
```

No day is safe with you around I'm scared but more scared of myself are you within, am I without t

```
My life, more than it ever was My life, I love it just because

My life, more than it ever was My life, I live it just because

My life, more than it ever was My life, I live it just because

My life, more than it ever was My life, I love it just because

My life, more than it ever was My life, I live it just because

My life, more than it ever was
