Said, momma I've been gone a long time
Don't know when I'm comin' back home again
Daddy, I know you've been thinkin' 'bout makin' it right
But don't you worry you ain't done nothin' I can't forgive

Said, there's a ring of fire around me
And God gave me time, so I've got to find my faith
And my big ol' heart's still pounding
I'm still alive, so I've got to find my way

Said, I'll get it over time but until then I'll just ride
Yea, you know I made up my mind so I can't let this one slide

Brother, I know times have been tough
But just like you I've been out here makin' it up
Sister, maybe I ain't done enough
But I guess that's just why they call it tough love

Said, there's a ring of fire around me
And God gave me time, so I've got to find my faith
And my big ol' heart's still pounding
I'm still alive, so I've got to find my way

Said, I'll get it over time but until then I'll just ride
Yea, you know I made up my mind so I can't let this one slide

Said, I can't let this one slide
Let it slide, slide
Let it slide
Let it slide
Let it slide
Let it slide
No, I can't let this one slide

Said, I'll get it over time but until then I'll just ride
Yea, you know I made up my mind so I can't let this one slide

Don't let it slide

Let it slide (let it slide)
Let it slide (let it slide)
Let it slide
Let it slide

Let it slide (let it slide)
Let it slide (let it slide)
Let it slide
Let it slide

Let it slide (don't let it slide)
Let it slide (don't let it slide)
Let it slide (let it slide, yeah)
Let it slide
