Dare To Dream

Jo Dee Messina

You and me baby, can meet for the weekend To solidify our plans We'll follow a jet stream to some place exotic All in the name of romance... 'Cause

We're still young and in love And we just believe We can be strong and do anything If we dare to dream

We'll find a place on a cliff by the ocean And pay a couple months' rent I'll sell my paintings down by the boardwalk So we'll have enough money to spend...

Dare to dream, take it to the extreme
Let your heart and soul lead the way
Live, love, seize the day and
Dare to dream, dare to dream, dare to dream

Don't try to stop us, don't tell us we're crazy You're only wasting your breath We're bound and determined to make it all happen It's just a matter of when 'Cause

Dare to dream, take it to the extreme
Let your heart and soul lead the way
Live, love, seize the day and
Dare to dream, dare to dream, dare to dream
