

Think About Us

Jo Dee Messina

Everyday is one more reminder
Of a life, a life without you
I get by, get by kind of
Well, at least that's what I'm trying do

Torn apart by all the reasons
Lose myself in all the pieces
Can't figure out the meaning
So unsure and all I know is

I wake up, get out of bed
Try to drag my fingers through my hair
Then I think about us, yeah, I think about us

Now you're gone, it's understood
God knows I'd change it if I could
When I think about love, I just think about us
And I hope those things, it could've been all gone

So I deal with what I've been given
All these feeling crowding on me
Oh, I feel like I'm barely living
So I keep it simple and I keep on pretending

I wake up, get out of bed
Try to drag my fingers through my hair
Then I think about us, yeah, I think about us

Now you're gone, it's understood
God knows I'd change it if I could
When I think about love, I just think about us
And I hope those things, it could've been all gone
I know that I don't want to feel that strong

Torn apart by all the reasons
Lose myself in all the pieces
Can't figure out the meaning
So unsure and all I know is

I wake up, get out of bed
Try to drag my fingers through my hair
Then I think about us, oh, I think about us

Now you're gone, it's understood
God knows I'd change it if I could
When I think about love, I just think about us
And if all those things, it could've been all gone
I know that I don't want to feel that strong, ooh
I think about us
