

# Desire

Joan Jett and the Blackhearts

You're gone from mean street  
Each time our eyes meet  
I want to touch you  
Sudden attraction  
Such strange reaction  
Hold me to you  
Then you push me away

I want to make you, make you  
Make you want to stay  
So let me take you, take you  
Take you baby all the way  
'Cause I feel that desire  
You're the flame that feeds my fire  
Will you take me higher  
Give me that love that I desire

Learned all that you want baby  
Then why don't you show babe  
Don't play with me baby  
'Cause I'll find somebody  
Who knows how to love me  
So if you want it  
You better take it right now

I want to make you, make you  
Make you want to stay  
So let me take you, take you  
Take you baby all the way  
'Cause I feel that desire  
You're the flame that feeds my fire  
Will you take me higher  
Give me that love that I desire

Come on and take me through the night  
You know I won't put up a fight  
Just wrap your arms around me tight  
Tonight, tonight, tonight

Wondered why you make me  
It might make you want to stay  
If you don't take me  
Life might never take me back this way  
I feel that desire  
You're the flame that feeds my fire  
Will you take me higher  
Give me that love that I desire

I feel that desire  
You're the flame that feeds my fire  
Will you take me higher  
Give me that love that I desire  
Desire, desire, desire
