

Time Machine

Joe Brooks

She left me in japan
I left her in madrid
she never said the things she said
I never did the things I did

sometimes things don't go as planned
sometimes things don't go as planned

but I got my time machine
I can just turn back everything
I always know what might've been
cause I just rewind, rewind
the whole wide universe
is rehearsing just for me
I can change anything
I got my time machine

you never said a word
but I heard everything you said
and all the silence that we wore
is still running through my head

sometimes things don't go as planned
sometimes things don't go as planned

but I got my time machine
I can just turn back everything
I always know what might've been
cause I just rewind, rewind
the whole wide universe
is rehearsing just for me
I can change anything
I got my time machine

be here now
be here now

I can change anything....
