

# Somethin' Like This

Joe Diffie

Darlin' tonight  
Just close your eyes  
And put your hand in mine  
I know it might seem a little bit like  
The blind leading the blind  
Put your faith in the music we're making  
This feeling that were dancing with  
I'm still learning all of the steps  
But I think it goes somethin' like this

Me in your arms  
World spinning 'round  
Making me dizzy  
Time slowing down  
Heart in your hands  
Tears in our eyes  
Knowing we're here  
For the rest of our lives  
They say it's too soon  
To know what love is  
Girl I think it goes  
Somethin' like this

Holding you close  
Darlin' I know  
This feelings more than desire  
Your like clear water  
Cool in my soul  
Somehow feeding the fire  
Taking my breath with the slightest touch  
Giving me strength with each kiss  
If there's such a thing  
As heaven on earth  
It's got to go somethin' like this

Me in your arms  
World spinning 'round  
Making me dizzy  
Time slowing down  
Heart in your hands  
Tears in our eyes  
Knowing we're here  
For the rest of our lives  
They say it's too soon  
To know what love is  
But, girl I think it goes  
Somethin' like this

Girl I know it goes  
Somethin' like this
